

Finally, on the swampy, marshy plains of southeast Texas where the San Jacinto River meets Buffalo Bayou, General Sam and the boys took a stand. In broad daylight in midafternoon on April 21, 1836, the volunteers for Texas freedom charged a Mexican army over twice their number. This fierce bunch of frontiersmen from all the States overwhelmingly defeated the invaders.

In 18 minutes, Texas had won independence and the largest amount of land in North American history changed hands because of a single battle.

Texas remained a free and independent republic for 9 years, electing General Sam as its first president. Then Texas was admitted to the U.S. by just one vote. And the rest, as they say, is Texas history.

And that's just the way it is.

HONORING ISRAEL ON ITS 60TH ANNIVERSARY

(Mr. MILLER of Florida asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MILLER of Florida. Mr. Speaker, I rise today also to honor the state of Israel which will celebrate its 60th anniversary in May. The relationship between the United States and Israel is indeed a special one. Israel has been our close friend and ally through the Cold War and now in the global war on terror. It is a relationship that will continue to strengthen in the years to come.

Even after 60 years, Israel continues to fight for its very survival against relentless attacks by Hamas and Hezbollah and other terrorist groups. The United States and Israel must always stand in complete solidarity against those nations and groups that seek to destroy Israel. We have stood together against anti-Semitism for the last 60 years, and we will continue to do so for many years to come.

I congratulate the Israeli government and the Israeli people on their special day. May God continue to bless the very close American relationship with Israel not only in this special year, but for all eternity.

OIL HITS \$118 A BARREL

(Mr. DUNCAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DUNCAN. Mr. Speaker, oil has hit \$118 a barrel. Gas is \$3.50 to \$4 a gallon. Fox News this morning said some experts say it will be \$5 a gallon by later this summer.

Most environmental radicals and extremists seem to come from very wealthy or very upper-income families. They want gas to go even higher so people will drive less. Perhaps the wealthy leaders of the Sierra Club and some of these other environmental

groups aren't being hurt, but they are really hurting the poor and the lower income and the working people of this country.

We don't need to produce all of our oil here domestically, but if we would just start producing a little bit more, then some of the OPEC countries and foreign energy producers would hold their prices down. We need to not let this country be sent into a deeper recession by environmental extremists and radicals.
